

Calculate rates, prepare returns, manage exemption certificates, and more

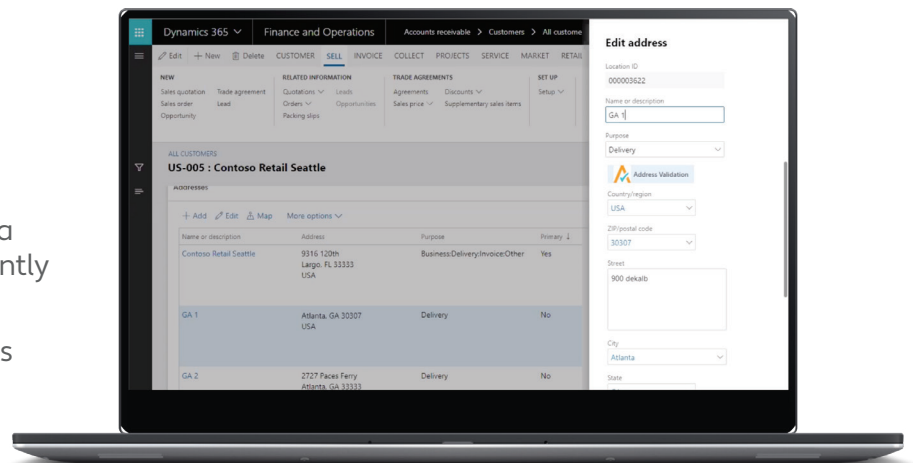

Directly from Microsoft Dynamics

Trying to keep up with all the demands of sales and use tax compliance can feel like a balancing act, especially given how frequently tax rates and taxability rules change.

Avalara's suite of cloud-based tax solutions gives you a better way to offload the complexity and improve your tax compliance management.

The power to manage sales tax from end to end is already built into the following Dynamics systems:

- Microsoft Dynamics 365 Business Central
- Microsoft Dynamics 365 Commerce
- E-Commerce Add-On for Dynamics 365 Commerce
- Microsoft Dynamics 365 Field Service
- Microsoft Dynamics 365 Finance
- Microsoft Dynamics 365 Sales
- Microsoft Dynamics AX for Retail
- Microsoft Dynamics GP
- Microsoft Dynamics NAV
- Microsoft Dynamics SL
- Microsoft Dynamics AX

Know where to register

Avalara AvaTax tracks your economic nexus tax liabilities and will alert you when you're about to trigger tax obligations in new states.

Manage certificates

Tax is automatically omitted from exempt sales. Avalara CertCapture allows you to manage exemption certificate collection, storage, and renewals within Dynamics.

Calculate real-time rates

Avalara AvaTax calculates rates across 13,000+ U.S. tax jurisdictions and verifies addresses with more accuracy than when relying on ZIP codes.

File and remit returns

Reconcile a single worksheet and pay one amount for your total tax liability. Avalara Returns works with state and local governments to file and pay on your behalf.

Assess consumer use liability

Avoid complicated spreadsheets or expensive custom solutions. Avalara Consumer Use allows you to assess consumer use tax liability across your business.

Handle global commerce

Avalara AvaTax Cross-Border calculates customs duty and import taxes such as VAT and GST for your international shipments.

WHAT CUSTOMERS ARE SAYING:

More than 1,400 Dynamics customers depend on Avalara to do tax compliance right.

I don't worry about sales tax at all now. If we turn on 15 more states tomorrow, we wouldn't have to worry about a single thing.

– Andrea Riviezzo, **Inovonics**
Microsoft Dynamics and Avalara customer

We save time by not having to search for and update tax rates. If we are ever audited for Sales and Use tax, I am confident I will have all of the data that is requested.

– Elaine Ware, **Digital Ally, Inc.**
Microsoft Dynamics and Avalara customer

We wanted one system that could do everything well – a few things very well – and we wanted it to be cloud-based. The teams involved with our tax compliance upgrade have been incredibly responsive, and they work great together.

– Matt James, **Hickory Farms**
Microsoft Dynamics and Avalara customer
